ABOUT MME NORDIC

MME Nordic is a global supplier of complete solutions within high-level machine construction for the medico device manufacturing industry.

In all fields, our staff are competent and highly international experienced people in this specific business.

We are ready to approach your business and receive your assignments, and supply high-tech automatic solutions for the medico industry on a solid foundation of knowledge developed throughout more than 20 years.

Quality and security is our trademark in all our assignments. It covers all aspects of the project from idea to finished and validated plants.

We carry out all our activities within the current standards for quality, environment, and work environment.

MME Nordic performs quality management in all assignments within a management system, which fulfils a pending ISO 9001 certification.

MME Nordic constructs machines according to GxP/GAMP guidelines, and we can offer validation of the machines according to either our own or custom procedures.

FEATURES AND BENEFITS

Turn-Key projects ▪ Re-Engineering and optimization ▪ Pilot projects

MEDICO MACHINE ENGINEERING

→ Complete Solutions

IN-HOUSE COMPETENCES

- Development and Design
- Engineering
- Construction and Assembly
- QA/QC, CE, Test and Documentation
- Delivery and Installation

CUTTING-EDGE TECHNOLOGY

→ Future-Proof Solutions

STAGE-GATE PRINCIPLES

→ Process Flow and Security

EXTENDED DOCUMENTATION

→ Traceability and Use Friendliness
